A better future is our responsibility

- **Our factories are powered by the sun!** Up to 40% of the energy we use comes directly from solar energy.

- **We are starting to make our packaging recyclable as of 2025.** Because taking responsibility for the future is part of who we are.

- **By measuring our carbon footprint, we are taking a step forward and continuing with determination to offer healthy and natural food to our pets.** The health of our planet is as valuable to us as the happiness of our animal friends!

- Our commitment to a better world knows no bounds: **We are committed to achieving zero-waste production standards by 2030 in accordance with the principles of the circular economy**
